Desk assessment

Description

Customers are often unaware of the best way to conduct testing and may require support and coaching to reach a state of test-readiness and proceed to purchase a testing service from TEF. Service S00248 is designed to help customers understand and navigate the various steps involved in testing. The service offers clear and straightforward guidance to ensure customers are fully prepared for testing. By collaborating with RISE experts, customers can be confident that they are receiving the appropriate advice to achieve their goals. The aim of the service is to make the testing process more accessible and understandable, allowing customers to focus on their core activities.

How can the service help you

The service is designed to address the needs of customers who require guidance and support in their testing process. Customers can be unsure about how to proceed with testing their product, lacking the necessary knowledge and expertise. The service provides clear guidance and expert coaching to help customers become ready to test their innovation.

How the service will be delivered

Logistics:

- The service can be executed remotely or on-site, depending on the customer's preference and the nature of the testing.
- There are no strict requirements for the customer's location. RISE experts can provide support and guidance remotely

Service customisation

The service can be adapted to specific customer needs.

The assessment journey starts with a joint meeting where the customer discusses different alternatives with a technical team from agrifoodTEF, supplemented with domain experts from RISE or Asta Zero and members from the customer support team.
